Education

BE, Information Technology

Dec 2021 – May 2025

Smt. Kashibai Navale College of Engineering

CGPA: 8.50/10

Senior Secondary (XII), Science

2021

Sou Vimlabai Garware High School and Junior College, Pune

Percentage: 87.00%

Secondary (X)

2019

Pirangut English School and Junior College, Pune

Percentage: 83.40%

Professional Experience

Full Stack Flutter Developer

Dec 2023 – Jun 2024

Kartavya Technology

- Engineered a robust application emphasizing data structures, algorithms, and performance.
- Managed and mentored a team of 8 interns, enhancing team productivity.
- Directed the end-to-end application lifecycle from initial planning to final deployment.

Flutter Development Intern

Sep 2023 – Nov 2023

Kutumb Aspiration

- Integrated RESTful APIs and managed state to enhance app functionality and user experience.
- Developed efficient data models and collaborated with a team to refine the application structure.
- Utilized **Git** and **GitHub** for code management and teamwork throughout the development process.

Full Stack Flutter Developer

Jul 2023 – Sep 2023

Kirabiz Technologies

- Developed a comprehensive full-stack food delivery application, managing both backend (Node.js, Express.js) and frontend (Flutter) components.
- Implemented efficient database solutions using **MongoDB**, ensuring secure and optimized data handling.
- Utilized **Git** and **GitHub** for version control and team collaboration, maintaining a well-documented codebase.

Skills

- Programming Languages:** Java, JavaScript
- Web & Mobile Technologies:** Flutter, React.js, Node.js, Express.js, Socket.IO, HTML, CSS
- Databases:** MongoDB, SQL
- Tools & Platforms:** Git, GitHub, Postman, Visual Studio Code, Android Studio
- Development Practices:** Agile, API Integration
- Cloud Services:** AWS
- Core CS Concepts:** Data Structures, Algorithms, Problem-Solving, Computer Networking, OOP

Projects

IssueCop – No More Issues

[App Link](#)

Technologies: Flutter, Node.js, MongoDB

- Developed and led the initial phase of IssueCop, an app for managing company issues efficiently.
- Worked extensively on both frontend (Flutter) and backend (Node.js, MongoDB).
- Led the development for a certain period, ensuring smooth functionality and scalability.

Food Delivery Website

Jan 2023

- Designed a food delivery website with a user-friendly interface and integrated authentication.
- Implemented an admin panel for efficient user management.

E-commerce App

Jul 2023 – Aug 2023

- Built and integrated APIs using Node.js and Express.js, reducing response time by **15%**.
- Managed data storage with MongoDB, ensuring data integrity and fast query responses.

Certificates

- Postman API Fundamentals Student Expert** - Jul 2024

Additional Details

- Solved **400+ DSA problems** on GeeksforGeeks and LeetCode.
- Co-Leader, Android** at Google Developer Student Club, SKNCOE.
